» Work Preferences

Tools & Technologies: Seeking opportunities to work with modern tech stack (cloud, big data, ML frameworks) and experiment with new analytical methodologies.

Business Impact: Want to contribute to projects where data analysis has direct impact on strategic decisions and measurable business results.

Ideal Projects: Interested in projects combining data analysis, machine learning, and business impact. Preference for data-driven companies with modern infrastructure and access to significant datasets.

» Professional Summary

Data leader with proven track record building enterprise data capabilities. Experience defining analytics strategies and implementing scalable ML infrastructure. Ability to translate business objectives into data-driven technical roadmaps.

» Professional Experience
